(4) During the first quarter of 2010, we made organizational changes in our business which resulted in the formation of additional operating segments and the repositioning of certain service offerings between the segments. Prior year comparative segment data has been restated to be consistent with the current presentation.

(5) Segment Operating Profit is a measure of profit used by management and excludes certain expense amounts not allocated to the specific reporting segments.

NAVIGANT CONSULTING, INC. AND SUBSIDIARIES
RECONCILIATION OF NON GAAP FINANCIAL MEASURES
(In thousands, except per share data)
(UNAUDITED)

Non-GAAP Financial Information

This metrics summary includes certain non-GAAP financial information as defined by Securities and Exchange Commission Regulation G. Pursuant to the requirements of this regulation, reconciliations of this non-GAAP financial information to the Company's financial statements as prepared under generally accepted accounting principles (GAAP) are included in this metrics summary. During 2009, the Company incurred significant severance expense as staffing levels were adjusted to market demand and Navigant executed its strategic refresh initiative involving the redeployment of certain resources. The Company also continues to be impacted by office consolidation expense due to its real estate initiatives including the impact of closing certain offices and changes in market conditions associated with expected sublease proceeds. Adjusted EBITDA exclude the impact of severance and office consolidation expense and adjusted earnings per share excludes the net income impact of severance and office consolidation expense in all periods presented. Severance and office consolidation expense are not considered to be non-recurring, infrequent or unusual to our business, however, management believes providing investors with this information gives additional insights into Navigant's operating performance. While management believes that these non-GAAP financial measures are useful in evaluating Navigant's operations, this information should be considered as supplemental in nature and not as a substitute for or superior to, any measure prepared in accordance with GAAP.

EBITDA and Adjusted EBITDA

EBITDA (earnings before interest, taxes, depreciation and amortization) is not a measure of financial performance under generally accepted accounting principles (GAAP). The Company believes EBITDA provides useful supplemental information for investors to evaluate financial performance. This data is also used by the Company for assessment of its operating and financial results, in addition to operating income, net income and other GAAP measures. Management believes EBITDA is a useful indicator of the Company's financial and operating performance and its ability to generate cash flows from operations that are available for interest, debt service, taxes and capital expenditures. Investors should recognize that EBITDA might not be comparable to similarly-titled measures of other companies. Adjusted EBITDA excludes the impact of severance and office consolidation expense as discussed above. This measure should be considered as supplemental in nature and not as a substitute for or superior to, any measure of performance prepared in accordance with GAAP.

Adjusted earnings per share (adjusted to exclude the net income impact from office consolidation and severance expense)

The Company discloses adjusted earnings per share to exclude the net income impact from severance and office consolidation expense as discussed above. Management believes the adjusted earnings per share information provides additional insights into Navigant's ongoing operating performance. This measure should be considered as supplemental in nature and not as a substitute for or superior to, any measure of performance prepared in accordance with GAAP.
