SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 1-12173

Navigant Consulting, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

36-4094854
(I.R.S. Employer
Identification No.)

30 South Wacker Drive, Suite 3550, Chicago, Illinois 60606
(Address of principal executive offices, including zip code)

(312) 573-5600
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

As of July 22, 2016, 47,400,293 shares of the registrant's common stock, par value \$.001 per share, were outstanding.

Forward-Looking Statements

Statements included in this report which are not historical in nature are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements may generally be identified by words such as “anticipate,” “believe,” “intend,” “estimate,” “expect,” “plan,” “outlook” and similar expressions. We caution readers that there may be events in the future that we are not able to accurately predict or control and the information contained in the forward-looking statements is inherently uncertain and subject to a number of risks that could cause actual results to differ materially from those contained in or implied by the forward-looking statements, including the factors described in the section entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015. We cannot guarantee any future results, levels of activity, performance or achievement, and we undertake no obligation to update any of the forward-looking statements contained in this report.

NAVIGANT CONSULTING, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Navigant Consulting, Inc. (“Navigant,” “we,” “us,” or “our”) (NYSE: NCI) is a specialized, global professional services firm that helps clients take control of their future. With a focus on markets and clients facing transformational change and significant regulatory or legal pressures, Navigant primarily serves clients in the healthcare, energy and financial services industries.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for interim reporting and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America (GAAP). The information contained herein includes all adjustments, consisting of normal and recurring adjustments except where indicated, which are, in the opinion of management, necessary for a fair presentation of the results of operations for the interim periods presented.

The results of operations for the six months ended June 30, 2016 are not necessarily indicative of the results to be expected for the entire year ending December 31, 2016.

These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes as of and for the year ended December 31, 2015 included in our Annual Report on Form 10-K filed with the SEC on February 16, 2016 (2015 Form 10-K). During the first quarter of 2016, we renamed two of our business segments. The Disputes, Investigations & Economics segment was renamed “Disputes, Forensics & Legal Technology,” and the Financial, Risk & Compliance segment was renamed “Financial Services Advisory and Compliance.” Other than the changes to the names of these segments, the characteristics of the business segments remain unchanged.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the unaudited consolidated financial statements and the related notes. Actual results could differ from those estimates and may affect future results of operations and cash flows. We have evaluated events and transactions occurring after the balance sheet date and prior to the date of the filing of this report.

2. ACQUISITIONS

2015 Acquisitions

On December 31, 2015, we acquired McKinnis Consulting Services, LLC (McKinnis) to further expand our healthcare business. McKinnis specializes in providing revenue cycle assessment, strategy and optimization assistance for healthcare providers. The acquisition included approximately 70 professionals and was integrated into our Healthcare segment. We paid \$45.7 million at closing, including \$42.7 million in cash (net of cash acquired) and \$3.0 million (or 176,758 shares) in our common stock. The purchase agreement also provides for a deferred contingent acquisition payment to the selling members of McKinnis in an amount up to \$10.0 million based on the business achieving certain performance targets over the one-year period ending December 31, 2016. We estimated the fair value of the deferred contingent consideration on the closing date to be \$8.3 million which was recorded in other non-current liabilities at net present value using a risk-adjusted discount rate. Based on a second quarter 2016 forecast which projected that the business’ strong operating performance was expected to continue through the end of 2016, we increased the fair value of the deferred contingent acquisition liability to \$9.5 million during the three months ended June 30, 2016. As part of our preliminary purchase price allocation, we recorded \$13.0 million in identifiable intangible assets, \$45.5 million in goodwill and other net assets of \$1.0 million. Terms of the purchase agreement also include a provision for a working capital adjustment to be calculated within 90 days of the closing, including a \$5.5 million payment to the selling members for undistributed cash held in the business as of the closing. The \$5.5 million payment was made during the first quarter 2016. As of June 30, 2016 the working capital adjustment had been finalized and settled. We are still in the process of finalizing our purchase price allocation and the assumptions used to determine the fair value of the intangible assets and deferred contingent consideration. To the extent that adjustments relate to facts and circumstances as of the closing date, the net impact will be recorded to goodwill for a period not exceeding one year.

On February 23, 2015, we acquired RevenueMed, Inc. (RevenueMed) to expand our business process management service capabilities within our Healthcare segment. RevenueMed specializes in providing coding, revenue cycle management, and business process management services to healthcare providers. This acquisition included approximately 1,500 professionals primarily located in India and was integrated into the Technology, Data & Process business within our Healthcare segment. We paid \$21.3 million in cash (net of cash acquired) at closing. The purchase agreement provided for a deferred contingent acquisition payment to the selling stockholders of RevenueMed in an amount up to \$4.0 million based on the business achieving certain performance targets over the six-month period beginning January 1, 2015 and ending June 30, 2015. We estimated the fair value of the deferred contingent consideration on the closing date to be \$3.8 million which was recorded in other current liabilities at net present value using a risk-adjusted discount rate. Based on the acquired business’ operating results during the performance period, the maximum earned amount was achieved, and on October 1, 2015, a \$4.0 million cash payment was made to settle the contingent acquisition liability. As part of our purchase price allocation, we recorded \$7.3 million in identifiable intangible assets, \$14.4 million in goodwill, \$1.4 million of internally developed software and other net assets of \$2.6 million. Other net assets included a liability for uncertain tax positions of \$1.3 million, and based on the indemnification terms of the purchase agreement, which entitles us to indemnification if tax is due, an offsetting receivable from RevenueMed was recorded in prepaid expenses and other current assets.

[Table of Contents](#)

See Note 11 – Fair Value for additional information regarding deferred contingent consideration fair value adjustments.

Pro Forma Information

The following supplemental unaudited pro forma financial information was prepared as if our 2015 acquisitions had occurred as of January 1, 2015. The following table was prepared for comparative purposes only and does not purport to be indicative of what would have occurred had the acquisitions been made at that time or of results which may occur in the future (in thousands, except per share data).

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Total revenues	\$ 261,683	\$ 240,337	\$506,970	\$472,524
Net income	\$ 14,777	\$ 8,387	\$ 27,419	\$ 34,026
Basic net income per basic share	\$ 0.31	\$ 0.17	\$ 0.58	\$ 0.70

Diluted net income per diluted share	\$ 0.30	\$ 0.17	\$ 0.56	\$ 0.69
Shares used in computing net income per diluted share	48,841	49,486	48,936	49,545

3. SEGMENT INFORMATION

Our business is assessed and resources are allocated based on the following four reportable segments:

- The **Disputes, Forensics & Legal Technology** (formerly Disputes, Investigations & Economics) segment's professional services include accounting, regulatory, construction and computer forensic expertise, as well as valuation and economic analysis. In addition to these capabilities, our professionals use technological tools to perform eDiscovery services and to deliver custom technology and data analytic solutions. The clients of this segment principally include companies along with their in-house counsel and law firms, as well as accounting firms, corporate boards and government agencies.
- The **Financial Services Advisory and Compliance** (formerly Financial, Risk & Compliance) segment provides strategic, operational, valuation, risk management, investigative and compliance advisory services to clients primarily in the highly-regulated financial services industry, including major financial and insurance institutions. This segment also provides anti-corruption solutions and anti-money laundering, valuation and restructuring consulting, litigation support and tax compliance services to clients in a broad variety of industries.
- The **Healthcare** segment provides consulting services and business process management services. Clients of this segment include healthcare providers, payers and life sciences companies. We help clients respond to market legislative changes such as the shift to an outcomes and value-based reimbursements model, ongoing industry consolidation and reorganization, Medicaid expansion, and the implementation of a new electronic health records system.
- The **Energy** segment provides management advisory services to utility, government and commercial clients. We focus on creating value for our clients by assisting in their implementation of strategy and new business models and creating sustainable excellence in areas such as investment management, integrated resource planning, renewables, distributed energy resources, energy efficiency and demand response, and transmission and distribution operations. In addition, we provide a broad array of benchmarking and research services.

The following information includes segment revenues before reimbursements, segment total revenues and segment operating profit. Certain unallocated expense amounts related to specific reporting segments have been excluded from segment operating profit to be consistent with the information used by management to evaluate segment performance. Segment operating profit represents total revenues less cost of services excluding long-term compensation expense attributable to client-service employees. Long-term compensation expense attributable to client-service employees includes share-based compensation expense and compensation expense attributed to certain retention incentives (see Note 6 — Share-Based Compensation Expense and Note 7 — Supplemental Consolidated Balance Sheet Information).

The information presented does not necessarily reflect the results of segment operations that would have occurred had the segments been stand-alone businesses.

We performed our annual goodwill impairment test as of May 31, 2016. The key assumptions included: internal projections completed during our second quarter 2016 forecasting process; profit margin improvement generally consistent with our longer-term historical performance; assumptions regarding contingent revenue; revenue growth rates consistent with our longer-term historical performance also considering our near term investment plans and growth objectives; discount rates that were determined based on comparable discount rates for our peer group; Company-specific risk considerations; control premium and cost of capital based on our historical experience.

Based on our assumptions, at that time, the estimated fair value exceeded the net asset carrying value for each of our reporting units as of May 31, 2016. Accordingly, there was no indication of impairment of our goodwill for any of our reporting units. As of May 31, 2016, the estimated fair value of our Disputes, Forensics & Legal Technology, Financial Services Advisory and Compliance, Healthcare, and Energy reporting units exceeded the fair value of invested capital by 17%, 61%, 22%, and 32%, respectively.

We will continue to monitor the factors and key assumptions used in determining the fair value of each of our reporting units. There can be no assurance that goodwill or intangible assets will not be impaired in the future. We will perform our next annual goodwill impairment test as of May 31, 2017.

Table of Contents

The components of intangible assets are as follows (in thousands):

	June 30, 2016	December 31, 2015
Intangible assets:		
Customer lists and relationships	\$ 107,968	\$ 109,745
Non-compete agreements	23,658	23,808
Other	27,449	27,302
Intangible assets, at cost	159,075	160,855
Less: accumulated amortization	(126,458)	(122,695)
Intangible assets, net	<u>\$ 32,617</u>	<u>\$ 38,160</u>

Our intangible assets have estimated remaining useful lives ranging up to ten years which approximate the estimated periods of consumption. We will amortize the remaining net book values of intangible assets over their remaining useful lives. At June 30, 2016, our intangible assets categories are as follows (in thousands, except year data):

Category	Weighted Average Remaining Years	Amount
Customer lists and relationships, net	6.0	\$27,254
Non-compete agreements, net	4.0	2,748
Other intangible assets, net	1.4	2,615
Total intangible assets, net	5.4	<u>\$32,617</u>

Total amortization expense was \$5.8 million and \$4.6 million for the six months ended June 30, 2016 and 2015, respectively. The estimated annual aggregate amortization expense to be recorded in future periods related to intangible assets at June 30, 2016 is as follows (in thousands):

Year Ending December 31,	Amount
2016 (includes January - June)	\$11,418
2017	8,466
2018	5,991
2019	4,148
2020	3,104
2021	3,327

5. NET INCOME PER SHARE (EPS)

The components of basic and diluted shares are as follows (in thousands and based on the weighted average days outstanding for the periods):

	For the three months ended June 30,		For the six months ended June 30,	
	2016	2015	2016	2015
Basic shares	47,550	48,150	47,488	48,137
Employee stock options	88	88	94	108
Restricted stock units	1,151	1,019	1,261	1,043
Contingently issuable shares	52	53	93	81
Diluted shares	<u>48,841</u>	<u>49,310</u>	<u>48,936</u>	<u>49,369</u>
Antidilutive shares(1)	273	304	225	243

- (1) Stock options with exercise prices greater than the average market price of our common stock during the respective time periods were excluded from the computation of diluted shares because the impact of including the shares subject to these stock options in the diluted share calculation would have been antidilutive.

[Table of Contents](#)

6. SHARE-BASED COMPENSATION EXPENSE

Share-based compensation expense is recorded for restricted stock units, stock options and the discount given on employee stock purchase plan transactions.

The amounts attributable to each category of share-based compensation expense are as follows (in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2016	2015	2016	2015
Amortization of restricted stock unit awards	\$ 3,695	\$ 3,163	\$ 5,946	\$ 4,989
Amortization of stock option awards	234	203	401	373
Discount given on employee stock purchase transactions through our Employee Stock Purchase Plan	66	54	177	162
Total share-based compensation expense	<u>\$ 3,995</u>	<u>\$ 3,420</u>	<u>\$ 6,524</u>	<u>\$ 5,524</u>

Total share-based compensation expense consisted of the following (in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2016	2015	2016	2015
Cost of services before reimbursable expenses	\$ 2,612	\$ 2,232	\$ 4,107	\$ 3,367
General and administrative expenses	1,383	1,188	2,417	2,157
Total share-based compensation expense	<u>\$ 3,995</u>	<u>\$ 3,420</u>	<u>\$ 6,524</u>	<u>\$ 5,524</u>

Share-based compensation expense attributable to client-service employees was included in cost of services before reimbursable expenses. Share-based compensation expense attributable to corporate management and support personnel was included in general and administrative expenses.

At June 30, 2016, we had \$18.0 million of total compensation costs related to unvested share-based awards that have not been recognized as share-based compensation expense. The compensation costs will be recognized as an expense over the remaining vesting periods. The weighted average remaining vesting period is approximately two years. During the six months ended June 30, 2016, we granted an aggregate of 1,055,957 share-based awards, consisting of restricted stock units and stock options with an aggregate fair value of \$14.4 million at the time of grant. These grants include certain awards that vest based on relative achievement of pre-established performance criteria.

7. SUPPLEMENTAL CONSOLIDATED BALANCE SHEET INFORMATION

Accounts Receivable, net

The components of accounts receivable are as follows (in thousands):

	June 30, 2016	December 31, 2015
Billed amounts	\$173,909	\$ 153,837
Engagements in process	103,416	80,102
Allowance for uncollectible billed amounts	(13,348)	(9,797)
Allowance for uncollectible engagements in process	(9,582)	(7,482)
Accounts receivable, net	<u>\$254,395</u>	<u>\$ 216,660</u>

Receivables attributable to engagements in process represent balances for services that have been performed and earned but have not been billed to the client. Services are generally billed on a monthly basis for the prior month's services. Our allowance for uncollectible accounts is based on historical experience and management judgment and may change based on market conditions or specific client circumstances.

Table of Contents

Prepaid Expenses and Other Current Assets

The components of prepaid expenses and other current assets are as follows (in thousands):

	June 30, 2016	December 31, 2015
Notes receivable - current	\$ 2,727	\$ 3,342
Prepaid recruiting and retention incentives - current	10,974	9,688
Other prepaid expenses and other current assets	18,044	16,699
Prepaid expenses and other current assets	<u>\$31,745</u>	<u>\$ 29,729</u>

Other Assets

The components of other assets are as follows (in thousands):

	June 30, 2016	December 31, 2015
Notes receivable - non-current	\$ 2,497	\$ 4,420
Capitalized client-facing software	1,342	1,567
Prepaid recruiting and retention incentives - non-current	15,264	14,009
Prepaid expenses and other non-current assets	1,995	2,535
Other assets	<u>\$21,098</u>	<u>\$ 22,531</u>

Notes receivable, current and non-current, represent unsecured employee loans. These loans were issued to recruit or retain certain senior-level client-service employees. During the six months ended June 30, 2016, no such loans were issued, and during the six months ended June 30, 2015, we issued loans aggregating \$2.1 million. The principal amount and accrued interest on these loans is either paid by the employee or forgiven by us over the term of the loans so long as the employee remains continuously employed by us and complies with certain contractual requirements. The expense associated with the forgiveness of the principal amount of the loans is amortized as compensation expense over the service period, which is consistent with the term of the loans.

Capitalized client-facing software is used by our clients as part of client engagements. These amounts are amortized into cost of services before reimbursable expenses over their estimated remaining useful life.

Prepaid recruiting and retention incentives, current and non-current, include sign-on and retention bonuses that are generally recoverable from an employee if the employee voluntarily terminates employment or if the employee's employment is terminated for "cause" prior to fulfilling his or her obligations to us. These amounts are amortized as compensation expense over the period in which they are recoverable from the employee, generally in periods up to six years. During the six months ended June 30, 2016 and 2015, we paid \$10.4 million and \$11.3 million, respectively, of sign-on and retention bonuses.

Property and Equipment, net

The components of property and equipment, net are as follows (in thousands):

	June 30, 2016	December 31, 2015
Furniture, fixtures and equipment	\$ 63,991	\$ 63,995
Software	81,322	77,910
Leasehold improvements	44,639	40,560
Property and equipment, at cost	189,952	182,465
Less: accumulated depreciation and amortization	(116,136)	(105,748)
Property and equipment, net	<u>\$ 73,816</u>	<u>\$ 76,717</u>

During the six months ended June 30, 2016, we recorded \$10.8 million in property and equipment which included \$4.6 million in our technology infrastructure and software, \$1.6 million in furniture and \$4.5 million in leasehold improvements (\$0.9 million was non-cash) related to the build-outs of various office spaces. During the six months ended June 30, 2016, we retired \$3.0 million in fully-depreciated assets.

[Table of Contents](#)

Other Current Liabilities

The components of other current liabilities are as follows (in thousands):

	June 30, 2016	December 31, 2015
Deferred acquisition liabilities - current	\$10,600	\$ 1,665
Deferred revenue	19,281	19,317
Deferred rent - current	2,890	2,909
Other current liabilities	1,971	8,256
Total other current liabilities	<u>\$34,742</u>	<u>\$ 32,147</u>

Other Non-Current Liabilities

The components of other non-current liabilities are as follows (in thousands):

	June 30, 2016	December 31, 2015
Deferred acquisition liabilities - non-current	\$ —	\$ 8,300
Deferred rent - non-current	14,166	14,358
Other non-current liabilities	5,540	6,298
Total other non-current liabilities	<u>\$19,706</u>	<u>\$ 28,956</u>

Deferred acquisition liabilities, current and non-current, at June 30, 2016 consisted of cash obligations related to definitive and contingent purchase price considerations recorded at net present value and fair value, respectively. During the six months ended June 30, 2016, we recorded a fair value adjustment which increased the deferred contingent acquisition liabilities by \$0.9 million and reclassified the non-current balance to current as it is expected to be settled within the 12 month period. See Note 11 – Fair Value for additional information regarding deferred contingent consideration fair value adjustments.

During the first quarter 2016, we made a payment of \$5.5 million to the selling members of McKinnis for cash held in the business at closing, which reduced other current liabilities.

The current and non-current portions of deferred rent relates to tenant allowances and incentives on lease arrangements for our office facilities that expire at various dates through 2028.

At June 30, 2016, other non-current liabilities included \$0.8 million of performance-based long-term incentive compensation liabilities. As part of our long-term incentive program for select senior-level client service employees and leaders, we grant restricted stock units which vest three years from the grant date based on the achievement of certain performance targets during the year prior to grant.

Deferred revenue represents advance billings to our clients for services that have not yet been performed and earned.

[Table of Contents](#)

8. ACCUMULATED OTHER COMPREHENSIVE LOSS

The activity in accumulated other comprehensive loss is as follows (in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2016	2015	2016	2015
Unrealized loss on foreign exchange:				
Balance at beginning of period	\$ (16,976)	\$ (15,051)	\$ (16,446)	\$ (11,973)
Unrealized (loss) gain on foreign exchange	(3,459)	2,834	(3,989)	(244)
Balance at end of period	<u>\$ (20,435)</u>	<u>\$ (12,217)</u>	<u>\$ (20,435)</u>	<u>\$ (12,217)</u>
Unrealized loss on derivatives:				
Balance at beginning of period	\$ (224)	\$ (254)	\$ (114)	\$ (111)
Unrealized loss on derivatives in period, net of reclassification	(45)	(46)	(207)	(264)
Reclassified to interest expense	66	134	153	259
Income tax benefit	(26)	(54)	(61)	(104)
Balance at end of period	<u>\$ (229)</u>	<u>\$ (220)</u>	<u>\$ (229)</u>	<u>\$ (220)</u>
	<u>2016</u>	<u>2015</u>		
Accumulated other comprehensive loss at June 30,	\$ (20,664)	\$ (12,437)		

9. DERIVATIVES AND HEDGING ACTIVITY

During the six months ended June 30, 2016, the interest rate derivatives outstanding are as follows (summarized based on month of execution):

Month Executed	Number of Contracts	Beginning Date	Maturity Date	Rate	Total Notional Amount (millions)
July 2014	5	July 11, 2014	July 11, 2017	1.10%	\$ 30.0
March 2015	1	May 29, 2015	May 31, 2018	1.47%	\$ 10.0
June 2015	1	June 30, 2015	June 30, 2018	1.40%	\$ 5.0

We expect the interest rate derivatives to be highly effective against changes in cash flows related to changes in interest rates and have recorded the derivatives as a cash flow hedge. As a result, gains or losses related to fluctuations in the fair value of the interest rate derivatives are recorded as a component of accumulated other comprehensive loss and reclassified into interest expense as the variable interest expense on our bank debt is recorded. There was no ineffectiveness related to the interest rate derivatives during the six months ended June 30, 2016. During the six months ended June 30, 2016 and 2015, we recorded \$0.2 million and \$0.3 million, respectively, in interest expense associated with differentials received or paid under the interest rate derivatives.

At June 30, 2016, we had \$0.4 million of net liability related to the interest rate derivatives.

10. BANK DEBT

Our credit agreement provides a \$400.0 million revolving credit facility. At our option, subject to the terms and conditions specified in the credit agreement, we may elect to increase commitments under the credit facility up to an aggregate amount of \$500.0 million. The credit facility becomes due and payable in full upon maturity in September 2018. Borrowings and repayments under the credit facility may be made in multiple currencies including United States Dollars, Canadian Dollars, United Kingdom Pound Sterling and Euro.

At June 30, 2016, we had aggregate borrowings outstanding of \$189.8 million, compared to \$173.7 million at December 31, 2015. Based on our financial covenants at June 30, 2016, approximately \$204.6 million in additional borrowings were available to us under the credit facility. At June 30, 2016, we had \$4.0 million of unused letters of credit under our credit facility, which have been included as a reduction in the available borrowings above. The letters of credit are primarily related to the requirements of certain lease agreements for office space.

At our option, borrowings under the credit facility bear interest at a variable rate equal to an applicable base rate or LIBOR, in each case plus an applicable margin. For LIBOR loans, the applicable margin varies depending upon our consolidated leverage ratio

[Table of Contents](#)

(the ratio of total funded debt to adjusted EBITDA, as defined in the credit agreement). At June 30, 2016, the applicable margins on LIBOR and base rate loans were 1.25% and 0.25%, respectively. Depending upon our performance and financial condition, our LIBOR loans will have applicable margins varying between 1.00% and 2.00%, and our base rate loans have applicable margins varying between zero and 1.00%. Our average borrowing rate (including the impact of our interest rate derivatives; see Note 9 — Derivatives and Hedging Activity) was 2.2% and 2.0% for the three months ended June 30, 2016 and 2015, respectively, and 2.3% and 2.2% for the six months ended June 30, 2016 and 2015, respectively.

Our credit agreement contains certain financial covenants, including covenants that require that we maintain a consolidated leverage ratio of not greater than 3.25:1 (except for the first quarter of each calendar year when the covenant requires us to maintain a consolidated leverage ratio of not greater than 3.5:1) and a consolidated interest coverage ratio (the ratio of the sum of adjusted EBITDA (as defined in the credit agreement) and rental expense to the sum of cash interest expense and rental expense) of not less than 2.0:1. At June 30, 2016, under the definitions in the credit agreement, our consolidated leverage ratio was 1.4 and our consolidated interest coverage ratio was 5.2. In addition, the credit agreement contains customary affirmative and negative covenants (subject to customary exceptions), including covenants that limit our ability to incur liens or other encumbrances, make investments, incur indebtedness, enter into mergers, consolidations and asset sales, change the nature of our business and engage in transactions with affiliates, as well as customary provisions with respect to events of default. We were in compliance with the covenants contained in our credit agreement at June 30, 2016; however, there can be no assurances that we will remain in compliance in the future.

11. FAIR VALUE

Fair value is defined as the price that would be received on the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The inputs used to measure fair value are classified into the following hierarchy:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability

Level 3: Unobservable inputs for the asset or liability

We endeavor to utilize the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. As circumstances change, we will reassess the level in which the inputs are included in the fair value hierarchy.

We utilize a third-party to value our interest rate derivatives. The interest rate derivatives are used to hedge the risk of variability from interest payments on our borrowings (see Note 9 – Derivatives and Hedging Activity). A majority of the inputs used in determining the fair value of the derivatives is derived mainly from Level 2 observations which include counterparty quotations in over the counter markets. However, the credit valuation adjustments associated with the derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by ourselves and our counterparties. We determined that these adjustments are not significant to the overall valuation of our derivatives. As a result, our interest rate derivatives are classified in Level 2 in the fair value hierarchy.

In certain instances our acquisitions provide for deferred contingent acquisition payments. These deferred payments are recorded at fair value at the time of acquisition and are included in other current and/or non-current liabilities on our consolidated balance sheets. We estimate the fair value of our deferred contingent acquisition liabilities using a probability-weighted discounted cash flow model. This fair value measure is based on significant inputs not observed in the market and thus represents a Level 3 measurement. Fair value measurements characterized within Level 3 of the fair value hierarchy are measured based on unobservable inputs that are supported by little or no market activity and reflect our own assumptions in measuring fair value.

The significant unobservable inputs used in the fair value measurements of our deferred contingent acquisition liabilities are our measures of the future profitability and related cash flows and discount rates. The fair value of the deferred contingent acquisition liabilities is reassessed on a quarterly basis based on assumptions provided to us by segment and business area leaders together with our corporate development and finance departments. Any change in the fair value estimate is recorded in the earnings of that period. During the six months ended June 30, 2016, we recorded \$0.9 million in other operating cost for a net increase in the liability and during the six months ended June 30, 2015, we recorded \$12.6 million in other operating benefit for a net reduction in the liability reflecting changes in the fair value estimate of the deferred contingent acquisition liability for certain acquisitions made in 2015, 2014 and 2013 (see Note 3 to the consolidated financial statements in our 2015 Form 10-K). Also during the six months ended

Table of Contents

June 30, 2015, the contingent acquisition liability related to the Cymetrix acquisition was reclassified as a definitive acquisition liability. The changes in deferred contingent acquisition liabilities are as follows (in thousands):

	For the six months ended	
	June 30,	
	2016	2015
Beginning Balance	\$ 8,782	\$ 23,272
Acquisitions	—	3,765
Accretion of acquisition-related contingent consideration	350	1,063
Remeasurement of acquisition-related contingent consideration	850	(12,625)
Payments	(49)	—
Reclassification to definitive consideration liability	—	(10,000)
Ending Balance	<u>\$ 9,933</u>	<u>\$ 5,475</u>

At June 30, 2016, the carrying value of our bank debt approximated fair value as it bears interest at variable rates. We consider the recorded value of our other financial assets and liabilities, which consist primarily of cash and cash equivalents, accounts receivable and accounts payable, to approximate the fair value of the respective assets and liabilities at June 30, 2016 based upon the short-term nature of the assets and liabilities.

Our financial assets and liabilities measured at fair value on a recurring basis at June 30, 2016 and December 31, 2015 are as follows (in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
At June 30, 2016				
Interest rate derivatives, net	\$ —	\$ 384	\$ —	\$ 384
Deferred contingent acquisition liabilities	\$ —	\$ —	\$ 9,933	\$9,933
At December 31, 2015				
Interest rate derivatives, net	\$ —	\$ 189	\$ —	\$ 189
Deferred contingent acquisition liabilities	\$ —	\$ —	\$ 8,782	\$8,782

12. OTHER OPERATING COSTS (BENEFIT)

Contingent Acquisition Liability Adjustment, Net

During the six months ended June 30, 2016, we recorded an expense of \$0.9 million relating to fair value adjustments to our estimated deferred contingent acquisition liabilities.

During the three and six months ended June 30, 2015, we recorded an expense of \$2.3 million and benefit of \$12.6 million, respectively, relating to fair value adjustments to our estimated deferred contingent acquisition liabilities. The adjustment made in 2015 relates primarily to our Cymetrix acquisition.

Deferred contingent acquisition liabilities are initially estimated based on expected performance at the acquisition date and subsequently reviewed each quarter (see Note 11 – Fair Value).

Office Consolidation, Net

During the six months ended June 30, 2016, we recorded a cost of \$0.2 million primarily related to the consolidation of office space acquired in Denver, Colorado related to the McKinnis acquisition.

During the three and six months ended June 30, 2015, we recorded costs of \$1.8 million and \$2.7 million, respectively, related to our consolidated office space located in New York City which we took possession of on October 22, 2014. The cost included rent expense for duplicate rent as we occupied our old New York City offices until the completion of the build-out of the new space in April 2015.

[Table of Contents](#)

We have included \$2.9 million in current and non-current liabilities for restructured real estate. The activity for the six months ended June 30, 2016 was as follows (in thousands):

	Office Space Reductions
Balance at December 31, 2015	\$ 3,083
Cost to operations during the six months ended June 30, 2016	141
Other adjustments during the six months ended June 30, 2016	114
Payments, net of amounts received during the six months ended June 30, 2016	(414)
Balance at June 30, 2016	<u>\$ 2,924</u>

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

This Management’s Discussion and Analysis of Financial Condition and Results of Operations relates to, and should be read in conjunction with, our unaudited consolidated financial statements included elsewhere in this report. In addition to historical information, this discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions, which could cause actual results to differ materially from management’s expectations. Please see the sections of this report entitled “Forward-Looking Statements” and Part II, Item 1A, “Risk Factors.”

Overview

We are a specialized, global professional services firm that helps clients take control of their future. With a focus on markets and clients facing transformational change and significant regulatory or legal pressures, we primarily serve clients in the healthcare, energy and financial services industries.

Revenues and Expenses

Our clients’ demand for our services ultimately drives our revenues and expenses. We derive our revenues from fees on services provided. The majority of our revenues are generated on a time and materials basis, though we also have engagements where fees are a fixed amount (either in total or for a period of time). We may also earn incremental revenues, in addition to hourly or fixed fees, which are contingent on the attainment of certain contractual milestones or outcomes. Variations in our quarterly or yearly revenues and resulting operating profit margins may occur depending on the timing of such contractual outcomes and our ability to consider these revenues earned and realized. Revenue is also earned on a per unit or subscription basis, generally for our technology-based service offerings.

Our most significant expense is client-service employee compensation, which includes salaries, incentive compensation, amortization of sign-on and retention incentive payments, share-based compensation and benefits. Client-service employee compensation is included in cost of services before reimbursable expenses, in addition to sales and marketing expenses and the direct costs of recruiting and training client-service employees.

Our most significant overhead expenses included in general and administrative expense are administrative compensation and benefits and office-related expenses. Administrative compensation includes salaries, incentive compensation, share-based compensation and benefits for corporate management and other non-billable employees that indirectly support client engagements. Office-related expenses primarily consist of rent for our offices. General and administrative expense includes bad debt expense and marketing, technology, finance, human capital management and legal expenses. Other non-billable employees who support the segments are recorded in cost of services before reimbursable expenses.

We periodically review and adjust our employees’ total compensation (which may include salaries, annual cash incentive compensation, other cash and share-based compensation, and benefits) to ensure that it is competitive within the industry and is consistent with our performance. We also monitor and adjust our bill rates for our service offerings and within the various industries we serve, depending on market conditions.

Hiring and Retention

Because our ability to derive fees is largely reliant on the hiring and retention of employees, the average number of full-time employees and our ability to keep client-service employees utilized are important drivers of the business. We use full time equivalent (FTE) as a measure of our client-service employees. The number of Client-Service FTE (as defined below) is client-service employees adjusted for part-time status and takes into account hiring and attrition which occurred during the reporting period. Our average utilization rate as defined below provides a benchmark for how well we are managing our Consulting FTE (as defined below) levels in response to changing demand.

Client-Service FTE levels and related compensation in excess of demand drive additional costs that can negatively impact operating profit margin. From time to time, we engage independent contractors and hire project employees to supplement our Client-Service FTE on certain engagements, which allows us to adjust staffing in response to changes in demand for our services and manage our costs accordingly.

[Table of Contents](#)

In connection with recruiting activities and business acquisitions, our general policy is to obtain non-solicitation covenants from senior and some mid-level client-service employees. Most of these covenants have restrictions that extend 12 months beyond the termination of employment. We utilize these contractual agreements and other agreements to reduce the risk of attrition and to safeguard our existing clients, employees and projects.

Technology

As our business has matured, we have also continued to invest in technology infrastructure to support our evolving service offerings, including investment in more sophisticated technology infrastructure to enable our technology-based services as they expand and change over time and to deliver scalable technology solutions to meet the demands of our clients.

Additional information about our operations is included in Part I, Item 1, “Business” of our 2015 Form 10-K.

Acquisitions

For details regarding our recent acquisitions, see Note 2 – Acquisitions to our unaudited consolidated financial statements. Any material impact our acquisitions may have had on our results from operations or segment results for the periods presented has been included in our discussion below.

Key Operating Metrics

The following key operating metrics provide additional operating information related to our continuing business and reporting segments. These key operating metrics may not be comparable to similarly-titled metrics at other companies. Our Technology, Data & Process businesses are comprised of technology enabled professional services, including business process management services and data analytics, legal technology solutions and data services and insurance claims processing, market research and benchmarking businesses.

- **Average FTE** is our average headcount during the reporting period adjusted for part-time status. Average FTE is further split between the following categories:
 - **Client-Service FTE** — combination of Consulting FTE and Technology, Data & Process FTE defined as follows:
 - **Consulting FTE** — individuals assigned to client services who record time to client engagements; and
 - **Technology, Data & Process FTE** — individuals in businesses primarily dedicated to maintaining and delivering the services described above and are not included in average bill rate and average utilization metrics described below.
 - **Non-billable FTE** — individuals assigned to administrative and support functions, including office services, corporate functions and certain practice support functions.
- **Period-end FTE** represents our headcount at the last day of the reporting period adjusted for part-time status. Consulting, Technology, Data & Process and Non-billable criteria also apply to period-end FTE.
- **Average bill rate** is calculated by dividing fee revenues before certain adjustments, such as discounts and markups, by the number of hours associated with the fee revenues. Fee revenues and hours billed on performance-based services and related to Technology, Data & Process FTE are excluded from average bill rate.
- **Average utilization rate** is calculated by dividing the number of hours of our Consulting FTE who recorded time to client engagements during a period, by the total available working hours for these consultants during the same period (1,850 hours annually). Hours related to Technology, Data & Process FTE are excluded from average utilization rate.
- **Billable hours** are the number of hours our Consulting FTE recorded time to client engagements during the reporting period. Recorded hours related to Technology, Data & Process FTE are excluded from billable hours.
- **Segment operating profit** represents total revenues less cost of services excluding long-term compensation expense attributable to client-service employees. Long-term compensation expense attributable to client-service employees includes share-based compensation expense and compensation expense attributable to retention incentives.

All Client-Service FTE, utilization and average bill rate metric data provided in this report exclude the impact of independent contractors and project employees.

Results of Operations

Results for the three and six months ended June 30, 2016 compared to the three and six months ended June 30, 2015

Overview. During the three months ended June 30, 2016 and 2015, we reported \$14.8 million and \$7.8 million in net income, respectively. Key highlights of our results include:

Revenues before reimbursements (RBR) increased 13.0% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. Nearly three-quarters of the RBR increase was attributable to organic growth. See segment results below for further discussion on RBR. Cost of services increased at a slightly lower rate than RBR and general and administrative expenses increased in line with the RBR. In addition, for the three months ended June 30, 2016, other operating costs were \$1.0 million compared to the three months ended June 30, 2015 of \$4.2 million (see Note 12 – Other Operating Costs (Benefit) to our unaudited consolidated financial statements for further information on such amounts). Our effective income tax rate for the three months ended June 30, 2016 and 2015 was 38.8% and 39.7%, respectively.

Table of Contents

During the six months ended June 30, 2016 and 2015, we reported \$27.4 million and \$33.0 million in net income, respectively. Key highlights of our results include:

Revenues before reimbursements (RBR) increased 12.1% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. Over two-thirds of the RBR increase was attributable to organic growth. See segment results below for further discussion on RBR. Cost of services increased at a slightly lower rate than RBR, and general and administrative expenses increased in line with the RBR. In addition, for the six months ended June 30, 2016, other operating costs were \$1.0 million compared to an other operating benefit for the six months ended June 30, 2015 of \$9.8 million (see Note 12 – Other Operating Costs (Benefit) to our unaudited consolidated financial statements for further information on such amounts). Our effective income tax rate for the six months ended June 30, 2016 and 2015 was 37.0% and 26.6%, respectively.

Key operating metrics:	For the three months ended June 30,		2016 over 2015	For the six months ended June 30,		2016 over 2015
	2016	2015	Increase (Decrease) Percentage	2016	2015	Increase (Decrease) Percentage
Average FTE						
-Consulting	1,712	1,548	10.6	1,709	1,560	9.6
-Technology, Data & Process	2,747	2,698	1.8	2,792	2,268	23.1
-Non-billable	827	700	18.1	817	673	21.4
Period-end FTE						
-Consulting	1,716	1,541	11.4	1,716	1,541	11.4
-Technology, Data & Process	2,642	2,701	(2.2)	2,642	2,701	(2.2)
-Non-billable	842	709	18.8	842	709	18.8
Average bill rate	\$ 303	\$ 294	3.1	\$ 297	\$ 289	2.8
Utilization	76%	75%	1.3	77%	76%	1.3

Key Operating Metrics. Utilization levels were 76% and 75% for the three months ended June 30, 2016 and 2015, respectively, and average bill rate increased 3.1% to \$303 over the same periods. Average FTE – Consulting increased 10.6% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 due to the acquisition of McKinnis on December 31, 2015 within our Healthcare segment as well as hiring within our Healthcare, Energy and Financial Services Advisory and Compliance segments. Average FTE – Technology, Data & Process increased 1.8% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015.

Utilization levels were 77% and 76% for the six months ended June 30, 2016 and 2015, respectively, and average bill rate increased 2.8% to \$297 over the same periods. Average FTE – Consulting increased 9.6% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 due to the acquisition of McKinnis on December 31, 2015 within our Healthcare segment as well as hiring within our Healthcare and Energy segments, partially offset by a decrease in FTE – Consulting within our Disputes, Investigations & Legal Technology segment. Average FTE – Technology, Data & Process increased 23.1% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 mainly due to the acquisition of RevenueMed in February 2015, which added 1,500 Client-Service FTE (Average FTE reflects partial period of ownership). Period end FTE – Technology, Data & Process as of June 30, 2016 and 2015 reflected the full impact of 1,500 Client-Service FTE acquired from RevenueMed.

Cost of Services before Reimbursable Expenses. Cost of services before reimbursable expenses increased 8.7% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The increase was due to higher compensation and benefits expenses mainly relating to the acquisition of McKinnis and other increases in Client-Service FTE relating to hiring within our Healthcare, Energy and Financial Services Advisory and Compliance segments partially offset by lower Client-Service FTE within our Disputes, Forensics & Legal Technology segment. Included in benefits expense was higher medical expenses. In addition, a firm wide leadership meeting was held in the second quarter 2016 while no such meeting was held in the comparative period of 2015. Incentive compensation also increased due to company performance. Severance expense relating to Client-Service FTE decreased for the three months ended June 30, 2016 compared to the corresponding period in 2015 at \$1.0 million and \$3.3 million, respectively.

Cost of services before reimbursable expenses increased 9.8% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The increase was due to higher compensation and benefits expense mainly relating to the acquisitions of RevenueMed and McKinnis and other increases in Client-Service FTE relating to hiring within our Healthcare, Energy and Financial Services Advisory and Compliance segments, partially offset by FTE decreases within our Disputes, Forensics & Legal Technology segment. As discussed above medical and meetings expenses were higher for the six months ended June 30, 2016 compared to the corresponding period in 2015. Recruiting and retention costs increased for the six months ended June 30, 2016 compared to the

[Table of Contents](#)

six months ended June 30, 2015. Incentive compensation also increased due to company performance. Severance expense relating to Client-Service FTE decreased for the six months ended June 30, 2016 compared to the corresponding period in 2015 at \$1.8 million and \$4.7 million, respectively.

General and Administrative Expenses. General and administrative expenses increased 13.9% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The increase was mainly due to higher compensation and benefits expense as a result of acquisitions and new hires to support growth of the business. Training and meeting expenses were also higher for the three months ended June 30, 2016 compared to the three months ended June 30, 2015, due in part to a firm wide leadership meeting held during the second quarter 2016 while no such meeting was held in the comparative period of 2015. In addition, bad debt expense increased to \$2.9 million for the three months ended June 30, 2016 compared to \$1.4 million for the three months ended June 30, 2015 due to higher aged balances for the three months ended June 30, 2016.

Average Non-billable FTE related to general and administrative expenses for the three months ended June 30, 2016 and 2015 was 750 and 636, respectively. The increase was mainly due to the acquisitions noted above.

General and administrative expenses were 18.7% and 18.5% of RBR for the three months ended June 30, 2016 and 2015, respectively. The increase was mainly due to the impact of our acquisitions and the increase in bad debt expense, partially offset by the increased RBR.

General and administrative expenses increased 12.9% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The increases are due mainly to reasons discussed above. In addition, bad debt expense increased to \$4.5 million for six months ended June 30, 2016 compared to \$1.6 million for the six months ended June 30, 2015 due to higher aged balances for the six months ended June 30, 2016.

Average Non-billable FTE related to general and administrative expenses for the six months ended June 30, 2016 and 2015 was 739 and 609, respectively. The increase was mainly due to the acquisitions noted above.

General and administrative expenses were 18.3% and 18.1% RBR for the six months ended June 30, 2016 and 2015, respectively. The increase was mainly due to the impact of our acquisitions and the increase in bad debt expense, partially offset by the increased RBR.

Depreciation Expense. The increase in depreciation expense of 22.6% and 22.2% for the three and six months ended June 30, 2016 compared to the three and six months ended June 30, 2015, respectively, was primarily due to increased technology infrastructure spending, software, and leasehold improvements.

Amortization Expense. Amortization expense increased 25.9% and 27.3% for the three and six months ended June 30, 2016 compared to the three and six months ended June 30, 2015, respectively. The increase was due to the allocation of purchase price to intangible assets of recent acquisitions partially offset by amortization relating to certain intangible assets as their useful lives came to term.

Other Operating Costs (Benefit):

Contingent acquisition liability adjustment, net. During the three and six months ended June 30, 2016 we recorded a cost of \$0.9 million relating to fair value adjustments to our estimated deferred contingent acquisition liabilities. During the three and six months ended June 30, 2015 we recorded a cost of \$2.3 million and a benefit of \$12.6 million, respectively. See Note 12 – Other Operating Costs (Benefit) to our unaudited consolidated financial statements for further information.

Office Consolidation, net. During the three and six months ended June 30, 2016, we recorded a cost of \$0.2 million primarily related to the consolidation of office space acquired in Denver, Colorado from McKinnis.

During the three and six months ended June 30, 2015, we recorded costs of \$1.8 million and \$2.7 million, respectively, related to our new consolidated office space located in New York City which we took possession of on October 22, 2014. The cost included rent expense for duplicate rent as we occupied our old New York City offices until completion of the build-out of the new space.

Interest Expense. Interest expense increased 15.4% or \$0.2 million and decreased 9.5% or \$0.3 million for the three and six months ended June 30, 2016, compared to the three and six months ended June 30, 2015, respectively. The increase for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 was mainly due to a higher average debt balance due to the McKinnis acquisition. The decrease for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was driven by lower imputed interest related to the deferred contingent consideration payable to the Cymetrix selling stockholders, partially offset by higher average debt balance in 2016 due to the McKinnis acquisition. Average borrowing rates were 2.2% and 2.0% for the three months ended June 30, 2016 and 2015, respectively, and 2.3% and 2.2% for the six months ended June 30, 2016 and 2015, respectively.

Income Tax Expense. Our effective income tax rate fluctuates based on the mix of income earned in various tax jurisdictions, including United States (U.S.) state and foreign jurisdictions which have different income tax rates, as well as various book-to-tax permanent differences. The rate is also impacted by discrete items which may not be consistent from year to year.

The effective income tax rate for the three months ended June 30, 2016 and 2015 was approximately 38.8% and 39.7%, respectively. The decrease in the effective tax rate for the three months ended June 30, 2016 as compared to the prior period is primarily attributable to a favorable change in the mix of pre-tax income attributable to lower tax rate jurisdictions.

[Table of Contents](#)

The effective tax rate for the six months ended June 30, 2016 and 2015 was 37.0% and 26.6%, respectively. The increase in the effective income tax rate for the six months ended June 30, 2016 compared to the corresponding period in 2015 primarily relates to the tax impact of the nontaxable nature of a portion of a deferred contingent acquisition liability fair value adjustment that reduced income tax expense by approximately \$5.3 million during the six months ended June 30, 2015.

Segment Results

Based on their size and importance, our operating segments are the same as our reporting segments. During the first quarter of 2016, we renamed two of our business segments. The Disputes, Investigations & Economics segment was renamed “Disputes, Forensics & Legal Technology,” and the Financial, Risk & Compliance segment was renamed “Financial Services Advisory and Compliance.” Other than the changes to the names of these segments, the characteristics of our business segments remain unchanged. Our performance is assessed and resources are allocated based on the following four reporting segments:

- Disputes, Forensics & Legal Technology
- Financial Services Advisory and Compliance
- Healthcare
- Energy

The following information includes segment RBR, segment total revenues and segment operating profit all on a continuing basis. Certain unallocated expense amounts related to specific reporting segments have been excluded from the calculation of segment operating profit to be consistent with the information used by management to evaluate segment performance (see Note 3 — Segment Information to our unaudited consolidated financial statements). Segment operating profit represents total revenues less cost of services excluding long-term compensation expense attributable to client-service employees. Long-term compensation expense attributable to client-service employees includes share-based compensation expense and compensation expense related to retention incentives (see Note 7 — Supplemental Consolidated Balance Sheet Information to our unaudited consolidated financial statements). Key operating metric definitions are provided above.

The information presented does not necessarily reflect the results of segment operations that would have occurred had the segments been stand-alone businesses.

Disputes, Forensics & Legal Technology

	For the three months ended June 30,		2016 over 2015	For the six months ended June 30,		2016 over 2015
	2016	2015	Increase (Decrease) Percentage	2016	2015	Increase (Decrease) Percentage
	Revenues before reimbursements (in 000s)	\$79,320	\$81,116	(2.2)	\$160,582	\$157,709
Total revenues (in 000s)	\$85,082	\$87,515	(2.8)	\$172,081	\$168,726	2.0
Segment operating profit (in 000s)	\$28,963	\$25,721	12.6	\$ 57,673	\$ 49,990	15.4
Key segment operating metrics:						
Segment operating profit margin	36.5%	31.7%	15.1	35.9%	31.7%	13.2
Average FTE - Consulting	481	483	(0.4)	485	492	(1.4)
Average FTE - Technology, Data & Process	191	213	(10.3)	192	212	(9.4)
Average utilization rates based on 1,850 hours	75%	75%	—	76%	75%	1.3
Average bill rate	\$ 375	\$ 379	(1.1)	\$ 378	\$ 373	1.3

The Disputes, Forensics & Legal Technology (formerly Disputes, Investigations & Economics) segment’s professional services include accounting, regulatory, construction and computer forensic expertise, as well as valuation and economic analysis. In addition to these capabilities, our professionals use technological tools to perform eDiscovery services and to deliver custom technology and data analytic solutions. The clients of this segment principally include companies along with their in-house counsel and law firms, as well as accounting firms, corporate boards and government agencies.

Three months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment decreased 2.2% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The decrease was mainly due to declines in demand and increased competition for legal technology solutions. This decline was partially offset by strong demand for our global expertise in large infrastructure and construction dispute matters as well as increased regulatory, compliance and dispute demand within the healthcare and life sciences sectors. In addition, performance-based fees associated with mass tort claims work were recognized during the three months ended June 30, 2016.

Average FTE – Consulting was relatively flat for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. Average FTE – Technology, Data & Process decreased 10.3% over the same periods as we took action to better align

Table of Contents

resources with demand in the prior year. Average bill rate decreased slightly to \$375 for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 mainly due to project mix. Utilization was flat for the three months ended June 30, 2016 compared to the three months ended June 30, 2015.

For the three months ended June 30, 2016 segment operating profit increased \$3.2 million compared to the three months ended June 30, 2015 reflecting the impact of cost management actions taken in prior periods as well as higher performance-based fees recognized during the three months ended June 30, 2016 for which certain cost of services were incurred in prior periods. Segment operating profit margin increased 4.8 percentage points mainly due to reasons discussed above. Severance expense for the three months ended June 30, 2016 and 2015 was \$0.5 million and \$2.2 million, respectively.

Six months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment increased 1.8% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The increase in RBR was mainly due to strong demand for our global expertise in large infrastructure claims and construction dispute matters, as well as increased regulatory, compliance and dispute demand within the healthcare and life sciences sectors. Also contributing to the increase were performance-based fees associated with mass tort claims work recognized during the six months ended June 30, 2016. These increases were partially offset by a decline in demand and increased competition for legal technology solutions.

Average FTE – Consulting decreased 1.4% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 due to personnel reductions taken during the year ended December 31, 2015 partially offset by new hires within key strategic growth areas. Average FTE – Technology, Data & Process decreased 9.4% over the same periods as discussed above. Average bill rate increased 1.3% to \$378 for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. Utilization increased 1.3% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 mainly due to decreased FTE following the actions taken by the segment in the prior year.

For the six months ended June 30, 2016 segment operating profit increased \$7.7 million compared to the six months ended June 30, 2015 mainly due to the RBR increase discussed above, partially offset by a related increase in cost of services. Segment operating profit margin increased 4.2 percentage points mainly due to higher RBR without a corresponding increase in compensation and benefits expenses. As mentioned above, performance-based fees were realized during the six months ended June 30, 2016 for which certain cost of services were incurred in prior periods. In addition, during the six months ended June 30, 2016 compared to the six months ended June 30, 2015, the segment benefited from ongoing cost management actions. Severance expense for the six months ended June 30, 2016 and 2015 was \$0.6 million and \$3.4 million, respectively.

Financial Services Advisory and Compliance

	For the three months ended June 30,		2016 over 2015	For the six months ended June 30,		2016 over 2015
	2016	2015	Increase (Decrease) Percentage	2016	2015	Increase (Decrease) Percentage
	Revenues before reimbursements (in 000s)	\$39,994	\$29,509	35.5	\$73,644	\$64,452
Total revenues (in 000s)	\$45,360	\$34,439	31.7	\$82,267	\$76,739	7.2
Segment operating profit (in 000s)	\$17,511	\$11,201	56.3	\$31,017	\$26,271	18.1
Key segment operating metrics:						
Segment operating profit margin	43.8%	38.0%	15.3	42.1%	40.8%	3.2
Average FTE - Consulting	305	295	3.4	298	299	(0.3)
Average utilization rates based on 1,850 hours	80%	75%	6.7	81%	79%	2.5
Average bill rate	\$ 316	\$ 273	15.8	\$ 303	\$ 274	10.6

The Financial Services Advisory and Compliance (formerly Financial, Risk & Compliance) segment provides strategic, operational, valuation, risk management, investigative and compliance advisory services to clients primarily in the highly-regulated financial services industry, including major financial and insurance institutions. This segment also provides anti-corruption solutions and anti-money laundering, valuation and restructuring consulting, litigation support and tax compliance services to clients in a broad variety of industries.

Three months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment increased 35.5% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The increase in RBR was due to continued demand for financial crimes expertise and increased demand for compliance and controls engagements from major financial institutions.

Average FTE – Consulting increased 3.4% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 to meet demand needs. Average bill rate increased 15.8% to \$316 for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 mainly due to a change in project mix. Utilization increased 6.7% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015, mainly due to the higher volume of work discussed above.

[Table of Contents](#)

Segment operating profit and segment operating profit margin increased \$6.3 million and 5.8 percentage points, respectively, for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The increase was mainly due to higher RBR, driven by higher demand and bill rates, and to a lesser extent, higher utilization, partially offset by higher compensation and benefits expenses.

Six months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment increased 14.3% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The increase was due to reasons discussed above.

Average FTE – Consulting was relatively flat for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. Average bill rate increased 10.6% to \$303 for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 mainly due to a change in project mix. Utilization increased 2.5% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015, mainly due to the higher volume of work discussed above.

Segment operating profit and segment operating profit margin increased \$4.7 million and 1.3 percentage points, respectively, for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The increases were due to reasons discussed above. In addition, segment operating profit margin for the six months ended June 30, 2015 benefitted from greater use of flexible resources during that period.

The Healthcare segment provides consulting services and business process management services. Clients of this segment include healthcare providers, payers and life sciences companies. We help clients respond to market legislative changes such as the shift to an outcomes and value-based reimbursements model, ongoing industry consolidation and reorganization, Medicaid expansion, and the implementation of a new electronic health records system.

Three months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment increased 21.1% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. RBR for the three months ended June 30, 2016 reflected the benefits of the December 2015 acquisition of McKinnis. Over half of the RBR increase was organic growth, driven by strong demand for large strategy-led transformation projects and revenue cycle consulting engagements.

Average FTE – Consulting increased 30.4% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 mainly due to the 70 professionals acquired from McKinnis and additional hiring to meet the higher demand. Average FTE – Technology, Data & Process increased 3.1% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 due to additional hiring. Utilization increased 1.3% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. Average bill rate increased 2.1% to \$292 for the three months ended June 30, 2016.

For the three months ended June 30, 2016 compared to the three months ended June 30, 2015, segment operating profit increased \$4.6 million while segment operating profit margin was relatively flat. Segment operating profit was positively impacted by higher RBR, partially offset by higher compensation, and benefits expenses as well as retention and training costs mainly related to acquired FTE and the increase in Client-Service FTE.

Six months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment increased 24.1% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. RBR for the six months ended June 30, 2016 reflected the full six month benefit of the February 2015 acquisition of RevenueMed and the December 2015 acquisition of McKinnis. Over half of the RBR increase was organic growth as discussed above.

Average FTE – Consulting increased 28.5% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 mainly due to the 70 professionals acquired from McKinnis and additional hiring to meet the higher demand. Average FTE – Technology, Data & Process for the six months ended June 30, 2015 reflected partial period employment of approximately 1,500

[Table of Contents](#)

professionals acquired in February 2015 with the RevenueMed acquisition as well as additional hiring. Utilization increased 2.7% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. Average bill rate was relatively flat for the six months ended June 30, 2016 compared to the six months ended June 30, 2015.

For the six months ended June 30, 2016 compared to the six months ended June 30, 2015, segment operating profit increased \$10.1 million while segment operating profit margin was relatively flat. Segment operating profit was positively impacted by higher RBR, partially offset by higher compensation and benefits expenses as well as retention and training costs mainly related to acquired FTE and the increase in Client-Service FTE.

<i>Energy</i>						
	<u>For the three months ended June 30,</u>		2016 over 2015	<u>For the six months ended June 30,</u>		2016 over 2015

Average bill rate	\$ 210	\$ 203	3.4	\$ 206	\$ 200	3.0

The Energy segment provides management advisory services to utility, government and commercial clients. We focus on creating value for our clients by assisting in their implementation of strategy and new business models and creating sustainable excellence in areas such as investment management, integrated resource planning, renewables, distributed energy resources, energy efficiency and demand response, and transmission and distribution operations. In addition, we provide a broad array of benchmarking and research services.

Three months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment increased 12.0% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The increase reflects strength across the segment's portfolio of solutions in addition to ongoing penetration of key client accounts.

Utilization decreased 1.3% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. Average bill rate increased 3.4% to \$210 due to bill rate increases and changes in project mix. Average FTE – Consulting increased 6.9% related to senior hires within targeted areas of the segment. Average FTE – Technology, Data & Process decreased 4.6% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015 mainly due to resource realignment.

For the three months ended June 30, 2016 compared to the three months ended June 30, 2015, segment operating profit increased \$0.9 million while segment operating profit margin was flat. Segment operating profit margin was impacted by the increase in RBR which was offset by higher incentive compensation expense.

Six months ended June 30, 2016 compared to corresponding period in 2015

RBR for this segment increased 8.5% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The increase was due to reasons discussed above.

Utilization decreased 2.7% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 reflecting the onboarding of senior hires ahead of expected sales pipeline conversion. Average bill rate increased 3.0% to \$206 due to bill rate increases and changes in project mix. Average FTE – Consulting increased 9.7% related to the investment in senior hires as discussed above. Average FTE – Technology, Data & Process decreased 4.6% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 mainly due to resource realignment.

For the six months ended June 30, 2016 compared to the six months ended June 30, 2015, segment operating profit and segment operating profit margin decreased \$0.3 million and 2.9 percentage points, respectively, due to higher compensation and benefits expenses associated with recent senior hires, partially offset by higher RBR and lower incentive compensation expense.

[Table of Contents](#)

Liquidity and Capital Resources

Our cash flow activities for the six months ended June 30, 2016 were as follows (in thousands):

	<u>2016</u>	<u>2015</u>
Net cash provided by (used in) operating activities	\$ 7,655	\$ (4,805)
Net cash used in investing activities	\$(18,159)	\$(46,452)
Net cash provided by financing activities	\$ 5,033	\$ 52,506

Generally, our net cash provided by operating activities is funded by our day to day operating activities, augmented by borrowings under our credit facility. First quarter operating cash requirements are generally higher due to payment of our annual incentive bonuses while subsequent quarters' cash requirements are generally lower. Our cash equivalents are primarily limited to money market accounts or 'A' rated securities, with maturity dates of 90 days or less.

We calculate accounts receivable Days Sales Outstanding (DSO) by dividing the accounts receivable balance, net of reserves and deferred revenue credits, at the end of the quarter, by daily revenues. Daily revenues are calculated by taking quarterly revenue divided by 90 days, approximately equal to the number of days in a quarter. DSO was 81 days at June 30, 2016, compared to 80 days at June 30, 2015.

Operating Activities

Net cash provided by operating activities was \$7.7 million for the six months ended June 30, 2016, and net cash used in operating activities was \$4.8 million for the six months ended June 30, 2015. The increase in cash provided by operating activities for the six months ended June 30, 2016 compared to the six months ended June 30, 2015 was primarily due to higher net income after non-cash adjustments as well as lower taxes paid partially offset by higher accounts receivable balances in the six months ended June 30, 2016.

Investing Activities

Net cash used in investing activities was \$18.2 million and \$46.5 million for the six months ended June 30, 2016 and 2015, respectively. Cash used in investing activities was lower in the six months ended June 30, 2016 compared to the six months ended June 30, 2015 primarily due to higher payments in the prior year period for acquisitions, capital expenditures related to the consolidation of our offices located in New York City and technology infrastructure spending primarily associated with our Technology, Data & Process businesses. The first quarter of 2016 included a working capital adjustment payment made to the selling members of McKinnis of \$5.5 million.

Financing Activities

Net cash provided by financing activities was \$5.0 million and \$52.5 million for the six months ended June 30, 2016 and 2015, respectively. The higher level of cash provided by financing activities for the six months ended June 30, 2015 was primarily related to borrowings made for the RevenueMed acquisition.

Debt, Commitments and Capital

For further information regarding our debt, see Note 10 – Bank Debt to our unaudited consolidated financial statements.

At June 30, 2016, we had total contractual obligations of \$360.3 million. The following table shows the components of our significant commitments at June 30, 2016 by the scheduled years of payments (in thousands):

Contractual Obligations	Total	2016	2017 to 2018	2019 to 2020	Thereafter
Deferred acquisition liabilities (a)	\$ 10,600	\$ 1,100	\$ 9,500	\$ —	\$ —
Revolving credit facility (b)	189,757	—	189,757	—	—
Lease commitments (c)	159,909	13,760	49,063	39,706	57,380
Total contractual obligations	<u>\$360,266</u>	<u>\$14,860</u>	<u>\$ 248,320</u>	<u>\$ 39,706</u>	<u>\$ 57,380</u>

- a) At June 30, 2016, we had \$10.6 million in liabilities relating to deferred acquisition liability obligations (reflected in the table above). Of this balance, \$9.9 million was in the form of contingent acquisition liability obligations which were recorded at estimated fair value and discounted to present value. Settlement of the liabilities is contingent upon certain acquisitions meeting performance targets. Assuming each of these acquisitions reaches its maximum target, our maximum deferred acquisition liabilities would have been \$28.5 million at June 30, 2016.
- b) Interest incurred on amounts we borrow under the credit facility varies based on relative borrowing levels, fluctuations in the variable interest rates and the spread we pay over those interest rates. As such, we are unable to quantify our future obligations relating to interest on the credit facility. See Note 10 – Bank Debt to our unaudited consolidated financial statements for further information on our credit facility.

[Table of Contents](#)

- c) At June 30, 2016, we had \$4.0 million of unused letters of credit under our credit facility, which have been included as a reduction in the available borrowings. The letters of credit are primarily related to the requirements of certain lease agreements for office space.

Through June 30, 2016, we have repurchased an aggregate of 7,973,232 shares of our common stock for approximately \$114.1 million under our share repurchase program. At June 30, 2016, we had approximately \$75.0 million remaining for share repurchases under the board authorization. See Part II, Item 2 of this report for additional information on the share repurchases.

During the first quarter of 2016, we retired 8,000,000 shares of treasury stock. As a result, within the stockholders' equity accounts on our consolidated balance sheets, treasury stock was reduced by the fair value of the shares calculated using the weighted average treasury stock inventory price, common stock was reduced for the aggregate par value of the shares retired, with the difference recorded as a reduction to retained earnings.

We believe that our current cash and cash equivalents, future cash flows from operations and borrowings under our credit facility will provide adequate liquidity to fund anticipated short-term and long-term operating activities. However, in the event we make significant cash expenditures in the future for major acquisitions or other unanticipated activities, we may require more liquidity than is currently available to us under our credit facility and may need to raise additional funds through debt or equity financing, as appropriate. In addition, if our lenders are not able to fund their commitments due to disruptions in the financial markets or otherwise, our liquidity could be negatively impacted.

Off-balance Sheet Arrangements

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities that would be expected to have a material current or future impact on our financial condition or results of operations.

Critical Accounting Policies

There have been no material changes to our critical accounting policies and estimates from the information provided in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies" in our 2015 Form 10-K.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). This update is intended to improve the financial reporting requirements for revenue from contracts with customers by providing a principle based approach. The core principle of the standard is that revenue should be recognized when the transfer of promised goods or services is made in an amount that the entity expects to be entitled to in exchange for the transfer of goods and services. The update also requires disclosures enabling users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. On July 9, 2015, the FASB voted to defer the effective date of this guidance by one year. On March 17, 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606), Principal versus Agent Considerations, which clarifies how an entity determines if it is a principal or an agent for each specified good or service promised to the customer, the nature of each specified good or service, and how an entity that is principal obtains control of a good and service provided by another party involved in providing goods or services to a customer. In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606), Identifying Performance Obligations and Licensing, which clarifies the guidance related to whether goods or services are distinct within the context of contract and therefore a performance obligation and the timing and pattern of revenue recognition for IP licenses. In May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, which provides clarifying guidance in certain narrow areas and added some practical expedients. The standard and related amendments will be effective for financial statements issued by public companies for interim and annual reporting periods beginning after December 15, 2017. Early adoption of the standard is permitted, but not before the original date of financial statements issued by public companies for interim and annual reporting periods beginning after December 15, 2016. We currently do not plan to early adopt this guidance and are evaluating the potential impact of this guidance on our consolidated financial statements as well as transition methods.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. This update includes amendments that change the presentation of debt issuance costs in financial statements. ASU 2015-03 requires an entity to present such costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs will continue to be reported as interest expense. This standard will be effective for financial statements issued by public companies for annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The new guidance will be applied retrospectively to each prior period presented. Subsequently in August 2015, the FASB issued ASU 2015-15, which clarified the guidance in ASU 2015-03 that for a line-of-credit (revolving credit) arrangement the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term. We adopted this standard as of January 1, 2016; however, since our credit facility is a revolving credit arrangement we will continue to present our current net debt issuance cost balance in other assets. Our net debt issuance cost as of June 30, 2016 was \$1.1 million.

[Table of Contents](#)

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805). This update requires the acquirer in a business combination to recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which adjustment amounts are determined. The adjustments are calculated as if the accounting had been completed at the acquisition date. Prior to this update, an acquirer was required to restate prior period financial statements as of the acquisition date for adjustments to provisional amounts. This standard became effective for us as of January 1, 2016. The standard will be applied to future acquisitions.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes (Topic 740). This update requires entities with a classified balance sheet to present all deferred tax assets and liabilities as noncurrent. The current requirement that deferred tax liabilities and assets be offset by jurisdiction and presented as a single amount is not affected by this standard update. This standard will be effective for financial statements issued by public companies for annual and interim periods beginning after December 15, 2016. Early adoption of the standard is permitted, and the standard may be applied either retrospectively or prospectively. We adopted this standard prospectively as of October 1, 2015, and reclassified our deferred tax assets and liabilities to the net non-current deferred tax liability in our consolidated balance sheet as of December 31, 2015.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This update amends the requirements for assets and liabilities recognized for all leases longer than twelve months. Lessees will be required to recognize a lease liability measured on a discounted basis, which is the lessee's obligation to make lease payments arising from the lease, and a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. This standard will be effective for financial statements issued by public companies for the annual and interim periods beginning after December 15, 2018. Early adoption of the standard is permitted. The standard will be applied in a modified retrospective approach for leases existing at or entered into after the beginning of the earliest comparative period presented. We are currently evaluating the potential impact of this guidance on our consolidated financial statements.

In March 2016, The FASB issued ASU 2016-09, Compensation-Stock Compensation (Topic 718). This update is intended to reduce the cost and complexity of accounting for share-based payments; however, some changes may also increase volatility in reported earnings. Under the new guidance, all excess tax benefits and deficiencies will be recorded as an income tax benefit or expense in the income statement and excess tax benefits will be recorded as an operating activity in the statement of cash flows. The new guidance also allows withholding up to the maximum individual statutory tax rate without classifying the awards as a liability. The cash paid to satisfy the statutory income tax withholding obligation is classified as a financing activity in the statement of cash flows. Lastly, the update allows forfeitures to be estimated or recognized when they occur. The requirements for the excess tax effects related to share-based payments at settlement must be applied on a prospective basis, and the other requirements under this standard are to be applied on a retrospective basis. This standard will be effective for financial statements issued by public companies for annual and interim periods beginning after December 15, 2016. We currently do not plan to early adopt this guidance and are evaluating the potential impact of this guidance on our consolidated financial statements.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk.*

Our primary exposure to market risk relates to changes in interest rates and foreign currencies. The interest rate risk is associated with borrowings under our credit facility and our investment portfolio, classified as cash equivalents. The foreign currency risk is associated with our operations in foreign countries.

Borrowings under our credit facility bear interest, in general, based on a variable rate equal to an applicable base rate (equal to the higher of a reference prime rate or one half of one percent above the federal funds rate) or LIBOR, in each case plus an applicable margin. We are exposed to interest rate risk relating to the fluctuations in LIBOR. We use interest rate swap agreements to manage our exposure to fluctuations in LIBOR.

At June 30, 2016, our interest rate derivatives effectively fixed our LIBOR base rate on \$45.0 million of our debt. Based on borrowings under our credit facility at June 30, 2016 and after giving effect to the impact of our interest rate derivatives, our interest rate exposure was limited to \$144.8 million of debt, and each quarter point change in market interest rates would have resulted in approximately a \$0.4 million change in annual interest expense.

At June 30, 2016, our cash equivalents were primarily limited to money market accounts or 'A' rated securities, with maturity dates of 90 days or less. These financial instruments are subject to interest rate risk and will decline in value if interest rates rise. Because of the short periods to maturity of these instruments, an increase in interest rates would not have a material effect on our financial position or results of operations.

We operate in various foreign countries, which exposes us to market risk associated with foreign currency exchange rate fluctuations. At June 30, 2016, we had net assets of approximately \$42.0 million with a functional currency of the United Kingdom Pound Sterling and \$11.5 million with a functional currency of the Canadian Dollar related to our operations in the United Kingdom and Canada, respectively. At June 30, 2016, we had net assets denominated in non-functional currency of approximately \$4.3 million. As such, a ten percent change in the value of the local currency would have resulted in a \$0.4 million foreign currency gain or loss in our results of operations. Excess cash balances held outside the U.S. are immaterial to our overall financial position, and therefore, we have limited exposure to repatriating funds back to the U.S.

Item 4. Controls and Procedures.

(1) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”)) that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time frames specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Any system of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

An evaluation of the effectiveness of the design and operation of the disclosure controls and procedures, as of the end of the period covered by this report, was made under the supervision and with the participation of our management including our principal executive officer and principal financial officer. Based upon this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective.

Except as described below, there has been no change in our internal control over financial reporting during the second quarter of 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

We are in the process of implementing a new Enterprise Resource Planning (ERP) system and reporting platform. The first phase of the implementation was completed during the second quarter of 2016 and included implementing new modules related to our general ledger, project costing, contracts, billing and accounts receivable systems. Additionally, during the second quarter of 2016, a portion of our legacy operating and financial information was migrated to the new ERP system and reporting platform, which resulted in the modification of certain controls, procedures and processes. We follow a system implementation life cycle process that requires significant pre-implementation planning, design and testing. We also conduct extensive post-implementation monitoring and testing of the effectiveness of our internal control over financial reporting, and the Company has not experienced any significant internal control deficiencies in connection with the implementation or operation of the new ERP system and reporting platform. We plan to continue to migrate our legacy operating and financial information to the new ERP system and reporting platform.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

We are a party to a variety of legal proceedings that arise in the normal course of our business. While the results of these legal proceedings cannot be predicted with certainty, we believe that the final outcome of these proceedings will not have a material adverse effect, individually or in the aggregate, on our results of operations or financial condition.

Item 1A. Risk Factors

There have been no material changes to the risk factors previously disclosed in Part I, Item 1A, “Risk Factors” in our 2015 Form 10-K.

[Table of Contents](#)**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

The following table sets forth repurchases of our common stock during the second quarter of 2016:

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Approximate Dollar Value of Shares That May Yet be Purchased Under the Plans or Programs(a)</u>
Apr 1 - 30, 2016	143,638	\$ 15.74	143,638	\$ 79,532,047
May 1 - 31, 2016	146,861	\$ 15.61	146,861	\$ 77,239,274
Jun 1 - 30, 2016	137,000	\$ 16.08	137,000	\$ 75,036,348
Total	<u>427,499</u>	\$ 15.81	<u>427,499</u>	\$ 75,036,348

- (a) On October 25, 2011, our board of directors extended its previous authorization to repurchase up to \$100 million of our common stock in open market or private transactions. On February 11, 2014, our board of directors increased the share repurchase authorization by approximately \$50 million. On May 14, 2015, our board of directors increased the share repurchase authorization to \$100 million and extended the authorization to December 31, 2017, effective July 1, 2015. As increased and extended, as of July 1, 2015, our board of directors had authorized the repurchase of shares of our common stock up to a total of \$100 million during the 30 month period ending December 31, 2017 of which approximately \$75 million in shares of our common stock may still be repurchased.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Julie M. Howard, certify that:

1. I have reviewed this report on Form 10-Q of Navigant Consulting, Inc., the registrant;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF CHIEF FINANCIAL OFFICER

I, Stephen R. Lieberman, certify that:

1. I have reviewed this report on Form 10-Q of Navigant Consulting, Inc., the registrant;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO 18 U.S.C. 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

Each of the undersigned, Julie M. Howard, Chairman and Chief Executive Officer of Navigant Consulting, Inc. (the "Company"), and Stephen R. Lieberman, Executive Vice President and Chief Financial Officer of the Company, in connection with the filing with the Securities and Exchange Commission of the Company's Quarterly Report on Form 10-Q for the six months ended June 30, 2016 (the "Report"), hereby certifies, pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
